LONDON COUNTY SUBURBS DIRECTORY

The area covered by this book commences where that covered by the POST OFFICE LONDON DIRECTORY ends, and extends to the boundaries of the County of London, so that the two books form a complete Directory of the City and County of London.

The book is arranged on the same plan as the POST OFFICE LONDON DIRECTORY, containing Street, Commercial, Trades and Court sections corresponding to the Street, Commercial, Trades and Court sections of that book.

The Proprietors continue to give in the present Edition of this Directory the new numbers of the Delivery Offices, as well as the "District Initials," in the addresses of those firms and persons whose names appear in the four different sections of the Book.

By the systematic use of these numbers, the public will continue to facilitate the work of the Post Office, and, at the same time, assure the earliest possible distribution of letters and other matter passing through the post.
